

# THANK YOU

Thank you so much for everything you helped me through. I finally don't have to wear good-nights or pull-ups. I always go potty before bed and wake up in the middle of the night. I feel really good inside now. When ever I go over to a friend's house I don't have to pack one (that feels really good). It really feels good not to find a little puddle on my bed. Wow! It is a lot easier to wake up dry.

THANKS A LOT,
